To

The Principal, Teachers & Students of
LICED SCIENTIFICIO
GIORDANO BRUNO

Dear Friends,

Greetings of love from the Tribal Mission!

I just would like to thank all of you for supporting my work in the Tribal Mission. Your support in the medical line is of a great help to the poor people of this remote Tribal Area. I use the money you sent to purchase the necessary medicines. I take medicines to the remote areas in the Ambulance – this we call mobile clinic. The Laboratory and the Ambulance help us in saving many lives. Though it is like a first aid center or a primary health center it is a great help to the poor. Mr. Gianni Scarpa, Paola Franzoso and the others who visited us could tell you more about the work I do in the Mission.

I got a Nun and 2 other nurses to support me in the clinic. With your support they are able to do a lot for the poor patients. I thank all of you for your interest and sending us the help. Please continue to support us in the future also.

I assure you of my prayers for you and for your family. May god bless you all in your activities.

Thanking you,

Yours Sincerely,

Fr. Babu George.
